PROFILE

Detailed-oriented and creative aspiring UI/UX Designer with a Bachelor's in Computer Applications and hands-on knowledge in design tools and web technologies. Currently pursuing a UI/UX Design Certification to create user-friendly and visually appealing digital products. Eager to contribute to innovative design projects with problem-solving skills and a keen eye for detail.

PROJECTS

RideMate

Bicycle Rental Mobile Application

- Developed a user-friendly mobile app for renting bicycles with real-time location tracking, onboarding flow, and an eco-themed modern interface.

EcoDrive

Eco-friendly Electric Scooter Selling Website

- Designed and prototyped a responsive e-commerce platform promoting sustainable transportation, featuring intuitive navigation, eco-inspired color schemes, and high-fidelity UI designs.

MindScape

Digital Mental Health Solution

- A mobile application aimed at supporting individuals with mental health challenges. Designed user-friendly interfaces and interactive flows to help users manage and overcome their issues effectively.
